Our experience has taught us how to create health plans that offer you the kind of benefits you want most.

How to choose the health plan that's right for you.

What a PPO health plan does.

A PPO, or preferred provider organization, is the kind of health plan that:

- Pays a portion of your medical expenses when you go to any doctor or hospital you choose.
- Pays more toward your medical expenses when you use a doctor or hospital in the PPO network.

With a PPO, your share of expenses includes:

- **Deductible:** This is the amount you have to pay each calendar year for services that your health care plan covers before the plan begins paying. Usually, the higher a plan's deductible is, the lower the monthly premiums are.
- **Coinsurance:** After your yearly deductible is met, this is the percentage of the cost you will have to pay for services covered by your health plan.

What Individual health care plans do not provide benefits for:

As with all health plans, there are some exclusions. Your contract does not provide benefits for: the 12 months following the effective date of the policy for any illness, injury or other condition for which medical advice, diagnosis, care or treatment was recommended or received 12 months prior to the effective date unless you have any prior creditable coverage towards this waiting period; services and supplies not medically necessary or not consistent with the diagnosis; treatment for which payment is made by any local, state or federal government (except Medicaid); services paid under Medicare or the Veterans Administration; any injury or disease related to war, declared or undeclared, or military service; convalescent or custodial care; hair transplants, eyeglasses/contact lenses/radial keratotomy and the examinations associated with them (except one annual vision exam under Premier); hearing aids; experimental

services; weight reduction or treatment for obesity; physical, occupational or speech therapy for developmental delay; infertility or cosmetic services, except as otherwise stated in the contract.

In addition, pregnancy related services are not covered unless the optional maternity rider is purchased (only available under Premier and there is a separate 12 month waiting period before maternity benefits are available). Also not covered is dental care and treatment and oral surgery unless the optional dental rider is purchased. Dental care is also subject to specific exclusions and limitations on services, such as two oral or periodontal exams per member per year.

A full disclosure of all benefits, exclusions and limitations is included in the Contract for this coverage or any optional coverage amendments. Please review these carefully upon enrollment.

Get a free look with a money-back guarantee

If you're approved for coverage, you'll receive your health plan policy by mail. You'll then have 10 days to review your policy. If you decide that the coverage isn't right for you, you may cancel your policy within those 10 days and your premiums will be refunded (less any claims that were already paid).

Enrollment guidelines for Individual health plans

To enroll, you must be:

- Age 64³/₄ or younger;
- A permanent legal resident of Georgia
- A U.S. resident for at least the last 3 months
- Not eligible for Medicare

Your qualified dependents include:

- Spouse or domestic partner age 64³/₄ or younger;
- Children (under 19 years of age), or the children (under 19 years of age) of your enrolling spouse or qualified domestic partner;
- Unmarried dependent children between the ages of 19 through 25 if full-time student (“dependent” as defined by the Internal Revenue Service)

Medical underwriting requirement

We believe that the cost of our plans should be consistent with your expected health care needs and risk factors. That's why we offer various levels of coverage. To determine individual medical risk factors, all applications are subject to medical underwriting. Depending on the results of the underwriting review, a number of things may happen:

- You may be offered coverage at the standard premium charge, or
- You may be offered the plan you selected at a higher rate, or
- You may not qualify for the plan listed in this brochure, or
- You may be given information about other options available to you.

If you have a significant medical condition and do not qualify for the plan you've chosen from this brochure or if you have discontinued group coverage, please contact your Blue Cross and Blue Shield of Georgia representative for information regarding other Individual coverage options.

Waiting periods

There is a specific twelve-month waiting period for coverage of any condition, disease or ailment for which medical advice or treatment was recommended by your health care provider or received within twelve months preceding the effective date of coverage. If you apply for coverage within 63 days of terminating your membership with another “creditable” health care plan, then you can use your prior coverage for credit toward the twelve-month waiting period. Blue Cross and Blue Shield will credit the time you were enrolled on the previous plan. Consult with your Blue Cross and Blue Shield agent or representative if you have a question about the underwriting process.
